Project Description
Project CSSTP-0006-00(864)
P.I.No 0006864/Fulton County

The proposed project will improve the safety and operation of the five leg intersection of SR 154 at Cedar Grove Road and Ridge Road. The existing two lane section of SR 154 will be widened to include a 14-ft center turn lane. Safety improvements to SR 154 will also include the correction of a substandard vertical curve approaching the existing intersection. The relocated intersection of Cedar Grove Road with SR 154 will be relocated approximately 400-ft north of the existing intersection. Cedar Grove Road will consist of two-11-ft lanes (one lane in each direction) and will be relocated to tie into Ridge Road at a T-intersection. Ridge Road will also consist of two-11-ft lanes (one lane in each direction). All proposed intersections will function under stop control. All approaches to SR 154 at the existing five-leg intersection will be closed and the pavement will be removed.
